YOUSSEF MOHAMED HASSAN

Full-Stack Web Developer | PHP | JavaScript | React | TypeScript | Node.js | MySQL

+20 106 149 2562 | yousefmohamed1e@gmail.com | Fayoum, Egypt

LinkedIn | GitHub

Professional Summary

Third-year Information Technology student and full-stack web developer with hands-on experience building and improving web applications using PHP, JavaScript, React, TypeScript, Node.js, and Express. Developed projects across healthcare management, opportunity tracking, and e-commerce, with practical work in REST APIs, authentication, relational databases, and responsive interfaces. Interested in backend engineering, database design, and maintainable software. Seeking a software development internship to contribute to real-world projects and continue growing as an engineer.

Education

Bachelor of Information Technology — **Expected Graduation: 2028**

Fayoum International Technological University — Third-Year Student

Academic Standing: Very Good

Technical Skills

Programming: PHP, JavaScript, TypeScript, Python, SQL, C, C++
Frontend: HTML5, CSS3, React, Bootstrap, Tailwind CSS, Responsive Web Design, Vite
Backend: Node.js, Express.js, REST API Development, PHP, PDO, Prepared Statements, Authentication
Databases: MySQL, MariaDB, Microsoft SQL Server, Relational Database Design
Tools: Git, GitHub, VS Code, XAMPP, Vercel, Playwright, Linux

Selected Projects

Launchboard – Opportunity Management Platform *React, TypeScript, Node.js, Express, MySQL*

Live Demo | GitHub Repository

- Built a full-stack platform for tracking internships, jobs, and freelance opportunities, with dashboards, saved views, calendar, deadlines, and reports.
- Developed an Express API and MySQL-compatible persistence with authentication, secure sessions, CSRF protection, account recovery, and CSV/JSON data workflows; deployed on Vercel.

HealthBridge – Healthcare Management System *PHP 8+, MySQL/MariaDB, PDO, JavaScript*

Live Demo | GitHub Repository

- Built patient, doctor, and administrator workflows for appointment scheduling, medical records, prescriptions, notifications, and hospital operations.
- Developed PHP services and JSON APIs using PDO prepared statements, role-based access, and a 25-table relational database; currently refactoring and testing maintainability.

NOVA Home – E-commerce Platform *PHP, MySQL, JavaScript, HTML, CSS*

Live Demo | GitHub Repository

- Built a full-stack e-commerce website with product discovery, search and filtering, wishlist, cart, customer accounts, Cash on Delivery checkout, and an admin portal.
- Implemented PHP/PDO backend workflows with prepared statements, CSRF protection, server-side validation, and MySQL catalogue and order management.

Flowly – SaaS Landing Page Concept *HTML, CSS, JavaScript, Bootstrap 5.3*

Live Demo | GitHub Repository

- Designed and developed a responsive SaaS landing-page concept with custom product UI previews, interactive components, and polished desktop and mobile layouts.
- Applied keyboard-accessible interactions and reduced-motion support; deployed with GitHub Pages.

Certifications & Training

Web Designer – NTI Summer Training Program — National Telecommunication Institute (NTI), 2026

Completed with a score of **94%**. View Certificate

Data Analysis Training — NTI / Creativa Fayoum, 2026

Technical training and practical project work.

Google IT Support Professional Certificate — Coursera, June–August 2025

Verify Credential

Additional Information

Languages: Arabic (Native), English (Fluent)
Leadership & Soft Skills: Project coordination, teamwork, problem-solving, adaptability, and clear technical communication.
